

Celonis Process Mining in Action

Access to Academic Cloud (Please register at least 2 days in advance)

1. Fill out the registration form at <https://academiccloud.celonis.com/login/register>
2. Please ensure that you use your **official academic email address** (not your private email)! Otherwise we cannot verify that you are an academic user.
3. Please wait some time until we will approve your free academic license.
4. After approval, you must verify your email address by clicking on the **'Verify' button** in the automatic email which you will receive (subject 'Welcome to Celonis Academic'). Please check your spam folder if you did not receive the verification email.
5. Afterwards login at <https://academiccloud.celonis.com/> and start process mining in the Academic Cloud.

Want to learn more about process mining?

- Academic Alliance website includes news and services for academic users. Go to www.celonis.com/academic-alliance
- Coursera online course "Process Mining – Data Science in Action" by Professor Wil van der Aalst. Go to <https://www.coursera.org/learn/process-mining>
- Celonis YouTube Channel. Go to <https://www.youtube.com/user/CelonisPM>

Your personal contact

Feel free to contact me, whenever you face technical problems or if you want to find out more about Celonis and our various opportunities for students.
